METAL ACCESSORIES

Kirsch's new Decorative Metal Accessories can transform the everyday into an expression that is unique and personal. Inspired by neo-classical and American influences, the collection's various components — Medallions and Knobs, Holdback Extensions, End Caps and Swivels Sockets — can function alone or in pleasant harmony with other Kirsch collections like Estate Ultra™ and Studio Coordinates®. Six designs, five finishes, unlimited possibilities.

*Color photography in print may vary slightly from actual finished product.
